

KAPITI CHESS CLUB

President's 2015 AGM Report

Another reasonably successful year was held with numbers attending very similar to the year before though slightly down.

Kapiti Chess Club this year promoted a social club environment where members met for conversation as well as playing a reasonably high level of chess.

Unfortunately due to rent increases for the current premises advertising and membership being slightly down we incurred a \$600 loss for the year which we will have to rectify in future years.

The club looks to have a rosy future in the current premises if we can maintain and increase our membership and slightly increase our subs.
